🔗 My Portfolio

Summary

Motivated Full Stack Web Developer with experience in both front-end and back-end technologies. Skilled in building responsive web apps, integrating APIs, and working with databases. Strong problem-solving skills, a solid understanding of software development practices, and a passion for learning. Experienced in writing clean, maintainable code in team settings.

Professional Experience

Full-Stack Web Developer Trainee

2025/01 – 2025/05

Orange Coding Academy

Completed an intensive training program in full-stack web development, covering both frontend and backend technologies. Developed dynamic web applications, implemented RESTful APIs, and worked with databases while following best coding practices and version control.

Technologies & Languages Learned:

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React
- **Backend:** PHP (Laravel)
- **Database:** MySQL
- **Tools & Practices:** Git/GitHub, Agile Methodology, RESTful APIs, Responsive Design

IT Assistant & Data Entry

2024/02 – 2024/12

Zepter International Jordan

Amman, Jordan

- Provided **technical support** for hardware and software issues, including **printers**, **scanners**, and general **office devices**.
- Assisted in solving **basic software problems**, such as issues in **Microsoft Office**, **Paint**, and other common tools.
- Handled **data entry tasks** accurately and efficiently, ensuring records were well-organized and up to date.
- Supported employees with **user issues**, helping them navigate tools and resolve day-to-day tech challenges.

Skills

Programming Languages

JavaScript, PHP

Front-End

HTML, CSS, JavaScript

Back-End

PHP(Laravel), JavaScript(Node.js)

Server Side

PostgreSQL, SQL (MySQL), NoSQL (MongoDB, Mongoose)

Data Structure & Algorithms

Proficient in Object-Oriented Programming (OOP) & algorithms and data structures for problem-solving

Additional Skills

Agile Development Methodologies, Database Management & SQL, Strong troubleshooting and debugging skills

Projects

Watch E-Commerce Website

2025

E-commerce Platform for Watches

Developed a fully functional and responsive e-commerce platform for selling watches, ensuring an optimal user experience across all devices. The website allows users to browse, filter, and purchase watches seamlessly. It also includes an **admin dashboard** for managing products, users, and orders efficiently. Key features include product management, user authentication, and an optimized shopping experience.

Technologies Used:

- **Frontend:** HTML, CSS, JavaScript (with Bootstrap for styling & responsiveness)
- **Backend:** PHP
- **Database:** MySQL
- **Tools & Collaboration:** Trello (project management), Figma (UI/UX design), DBDiagram (database modeling)

Riwaya Hub Library

2025

Simple and Interactive Online Book Library

Developed a responsive online book library where users can browse, search, and manage their favorite books. The platform uses **local storage** to save user data and preferences.

Technologies Used: HTML, CSS, JavaScript, Bootstrap, Trello, Figma.

Graduation Project

2024

Tasha Mobile Application

Tasha is a mobile dynamic application designed to assist individuals in seamlessly joining and participating in volunteer activities. This innovative app simplifies the process of engagement by connecting users with a diverse range of volunteer opportunities

Restaurant Website

2023

Web Application

Developed and designed a restaurant website featuring an online menu with prices, food ordering functionality, and essential restaurant details. This project enhanced customer convenience, boosted sales, and improved the restaurant's digital presence.

JSYP Webpage

2023

IEEE - HU

Developed and launched a responsive website for a conference hosted by IEEE. The website provided real-time event details, schedules, speaker profiles, and registration functionality, enhancing attendee engagement and streamlining event coordination.

Volunteer Experience

Volunteer Web Developer – IEEE

2023 – 2024

Web Master, IEEE Student Branch

Zarqa, Jordan

- Volunteered as a **web developer** for IEEE, supporting campus conferences and activities.
- Designed and managed **event websites**, ensuring they were **responsive**, user-friendly, and regularly updated.
- Maintained real-time updates and provided technical support for event-related web tools.

IT-Etihad Student Group

2021 – 2023

Academic Content Mentor

Zarqa, Jordan

- Edited and organized educational videos to improve clarity and engagement for students.

- Created **course summaries** and **study plans**, while mentoring new students academically.
- Organized student-led sessions covering key topics in major IT courses.

Languages

- Arabic
- English
